

Technical Specification

Doc. No. : UM-SBU-PESLC1.5

Version No.: UM/01

Date: Oct. 10, 2020

Product Name: LDPE Sleeve Covers, Machine Made

LDPE Sleeve covers, 15 micron.

1. General Product Description

Sleeve cover is in package with CE mark, produced under control of system ISO 13485.

2. CE classification

CE 10/2011

3. Application / Indication

Disposal use to food processing, industry, sanitation, general cleaning sensitive areas.

4. Material Requirements

The material is made from polyethylene

Code No	Color	Thickness	Remark
UM-PESLC15	Blue	15 micron	Machine Made

5. Production process

Cutting, welding by machine. Checking and packing.

6. Packing and Printing

Size	Quantity /poly bag	Quantity/carton	Carton measure-cm
40(+/-2)x20(+/-2)cm	100 pc/polybag	2000 pcs	39x24x32cm or similar sizes

Packed in brown carton(3 ply kraft paper + 2 ply corrugated paper) suitable for transportation with printing on four sides(according to customer's requirement).

Printing artwork includes information as following: reference, batch, description in English, French and Portuguese, units, EAN code, pictograms for handling and preservation of the product(according to customer's requirement).

7. Quality control process and standard

Incoming material inspection, inprocessing inspection, finished production inspection;

Cleanness, without odor, holes, grease and foreign matters, finished in good condition, size and weight conform to requirements

8. Storage

Keep in a ventilated, dry and clean place and keep away from sunlight and raining.

9. Expiry date

5 years from the production date
